

EXPERIENCE ULURU AND KATA TJUTA departing Sydney on 24 September 2005 - \$2995

Have you actually visited Central Australia, Uluru (Ayres Rock) or Kata Tjuta (The Olgas)? Many plan to, but relatively few take the opportunity when holidays are due.

Uluru and Kata Tjuta are Australia's greatest tourist destinations and they attract hundreds of thousands of overseas visitors each year, however relatively few Australians have made the journey.

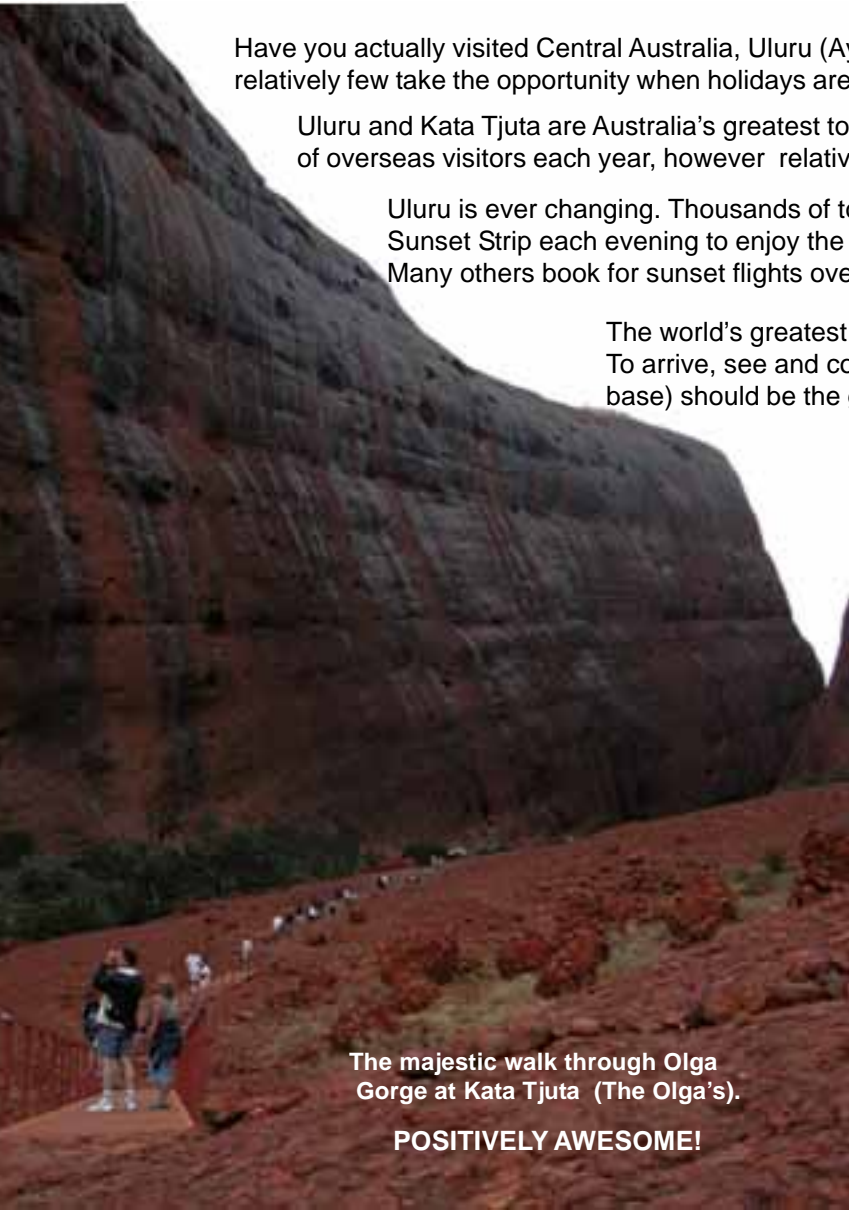

Uluru is ever changing. Thousands of tourists flock to the sand dune affectionately known as Sunset Strip each evening to enjoy the changing red hues of the Rock as the sun sets in the west. Many others book for sunset flights over Uluru to catch the fabulous colour changes from the air.

The world's greatest monolith should be a mecca for every Australian. To arrive, see and conquer (either the climb to the top or a walk around the base) should be the goal of every Australian.

The climb to the top is the highlight for most visitors. It will take many hours and is best embarked upon during the early morning cool of the day. The view and absolute exhilaration of being at the top challenges thousands of tourists each month. You will pass literally hundreds of fellow climbers and exchange greetings or a good Australian "Good'ay" along the way.

The summit is a cosmopolitan meeting place with tourists from Japan and Asia, Germany, Ireland, Sweden, the U.K. and other places afar. You'll be amazed at the cross section of the world represented on any day.

The climb is not easy yet it is something that you'll remember for the rest of your life. Centre One Tours Australia has a luxury 5 star coach tour to the Red Centre and the Top End this Spring, and can assist you in challenging the massive monolith.

The majestic walk through Olga Gorge at Kata Tjuta (The Olgas).
